

## **Marius Pretorius, Australia's Submarine Company**

Marius brings over 20 years' experience in international manufacturing and supply chain management across the defence, mining, and automotive sectors. He has held senior leadership roles with accountability for developing operations, industrial uplift and transformation in strategically significant projects. His extensive experience encompasses both Greenfield and Brownfield expansions, with substantial domestic and international supply chain development.

In his current role as General Manager, Supply Chain Strategy and Oversight at ASC, Marius leverages his diverse industry background to develop strategic capability partnerships and sovereign supply chain capabilities. His remit includes supporting ASC's responsibilities within the AUKUS program. He collaborates closely with the Australian Submarine Agency, the Trilateral Submarine Industrial Base, and local government to position ASC as a leader in Australia's near- and long-term industrial uplift.
